appearance, compact structure

Product Picture	Note
SCIP	Non-self-priming, single stage, single suction, horizontal, axial suction and radical discharge.  Motor is fixed with a baseplate, and the pump is easily to be installed for no support for pump body.  Back-pull-out desiagn, easy to maintain.  Pump shaft is the same one as motor shaft, small volume and light weight.  The impeller and pump body are disigned through excellent hydraulic calculation. The optimum working condition of pump is set according to market demand, high efficiency.  The main parts like impellers and castings are made of stainless steel.  Castings adopt resin sand casting process, bright and clean surface, good
